

# BURIED SUNLIGHT: HOW FOSSIL FUELS HAVE CHANGED THE EARTH

Acclaimed Caldecott Artist Molly Bang teams up with award-winning M.I.T. professor Penny Chisholm to present the fascinating, timely story of fossil fuels. What are fossil fuels, and how did they come to exist? This engaging, stunning book explains how coal, oil, and gas are really "buried sunlight," trapped beneath the surface of our planet for millions and millions of years. Now, in a very short time, we are digging them up and...

## Reader's Opinions

This would be a good book for Eco-conscious kids who are interested in learning about fossil fuels, carbon emissions, and climate change. It's not a good read-aloud as you need to really study each page and sit with it a while to let the information sink in.
