Reader's Opinions

Great book to get you going in commercial real estate. This is an excellent book that is an easy read. The principles that he presents are practical and actionable. His style of writing is engaging and flows well from point to point. This is on my list of must read books for the serious real estate investor.

Although I am not yet "crushing it," this book gave me plenty of good information that I plan to use when I do start building my empire. Disclaimer: I received this book as part of a Goodreads Giveaway in exchange for a fair and honest review.
