

THE QUR'AN AND MODERN SCIENCE

Despite its being just a booklet, "The Qur'an and Modern Science" includes encyclopedic information about the perfect conformity between the two elements of its title. The proof of such conformity is based on impartial, objective and systematic researches and studies of both elements. Dr. Maurice Bucaille, the author, is an eminent French surgeon and outstanding scientist whose thorough study of the Qur'an, although he is Christian,...

Peek Inside the Book

There is no compulsion for man to accept the truth. But it is certainly a shame upon the human intellect when man is not even interested in finding out as to what is the truth! Islam teaches that God has given man the faculty of reason and therefore expects man to reason things out objectively and systematically for himself. To reflect and to question and to reflect. Maurice Bucaille, The Qur'an and Modern Science //

Reader's Opinions

The book is a small introductory on Quran and discoveries in modern science. This booklet by Dr. Maurice Bucaille has been in circulation for the past nineteen years and has been a very effective tool in presenting Islam to non-Muslims as well as introducing Muslims to aspects of the scientific miracle of the Quran. It is based on a...

I've been looking for a book related to this topic and I was optimistic when I had it in hand. Unfortunately, it did not meet my expectations and I'm afraid to say it wasn't of great value. Probably because it was published more than three decades ago. There must be a better version out there.
